"I can recommend *reformax* very highly to you. It is an extremely professional company which carried out work on my property to an excellent standard.
They completed the work to the agreed deadline and equally importantly to the agreed budget. Their staff were polite and considerate at all times during the work and showed an excellent attention to detail.
I was kept informed of progress at all times and despite the possible uncertainties of working with a foreign company abroad, I found that *reformax* understood this and ensured that we knew what was happening during every step of the project.

Once the work was completed, not only did we have a beautiful new home, we had also found some very good friends.

I would not hesitate to use their services again and cannot recommend them too highly."
